Dont want to keep paying \$15 every month. I would reccomend it but not a monthly subscription..... Good software, auto renew doesn't work. Love Camtasia and monthly subscription, but now they're stopping the monthly subscription to steam customers I will be looking for an alternative screen recording software. Bad move for Camtasia. No option to re start my subscription, i click add to cart, it doesn't work since ive already purchased previously, but isn't showing up in my games\software library.

But when it was working, best editing software I've found so far!. WHAT? I HAVE TO RENEW IT AFTER A SHORT TIME? what the heack. ITS a good software but really? NOT RECOMENDED. I love the software its easy to use cheap and for a beginner in recording its exactly what i needed. But has more options than some of the other beginner softwares

I loved Camtasia, loved it even more when they moved to a monthly subscription here on Steam because of how often I used it. Was happy to subscribe. But then they.. stopped? And no longer offer it here? That makes me really sad.. Beautiful app, easy to use and easy to activate! It needs fresh install, if you are using old or crack version of camtasia then there will be activation or watermark issues. You need to undo crack and host file and then uninstall and then reinstall using steam and everything works charm. The only issue is that is not available for mac.. i really dislike that i had previously bought this software and now im unable to use it because for whatever reason my License expired? ive used this software for all my videos and now i cant use it at all without having to buy it again. I have only tried one other editor and that was the Sony Vega and as well as this being cheeper (waaaay cheeper) it also was esier as well as has a few features i like. now i am not saying its the best of the best but for quality for the price this is the editor of any new youtubers dream. as well as for youtube im also able to record just the screen so it comes in handy as something to fiddle with.. well no, i paid fifteen bucks for this software, and i got a THIRTY DAY TRIAL, it really made me angry and i want my money back, so no i do not recommend it, a full 15 bucks wasted, and i bought it from here too, thinking i got a deal! heck no, do not buy this, unless you want to keep renewing it every couple of days with 15 bucks, thanks for your time :D. how do i cancel my payment of this product?
