May 25, 2016 Windows 8.1 Update October 2016 Hi there, sorry to bother you. I recently had an issue with a Windows 10 update where my computer did not power on, and I'm not sure what I can do about it. I have a Dell E7450, which I've had from the day I bought it, and when I tried to reinstall Windows from the media I created using the instructions here: i created an ISO file but when I tried to run it, the computer wouldn't even boot up. All I see is a white rectangle for about 2 minutes then it goes into a blue screen and reboots. Microsoft released Windows 8.1 for those of you who have used the final version of the operating system. Windows 9 — the free edition — will arrive sometime later this year, however, meaning Windows 8.1 consumers have a bit more time to wait. The Windows Community Tech Center's Storyteller blog was the first to identify the delay, noting that Microsoft simply hasn't released Windows 9 yet.
